

UNIQUE VISITS AT MUSEO PICASSO MÁLAGA

This private visit programme by the museum offers the opportunity to **customize your visit experience**. Designed to discover the museum in unique occasions such as a congress, company meeting or simply a different cultural activity.

Accompanied by art historians, given in the language, on the day and time you prefer, you can make up the visit that suits you most.

The Museo Picasso Málaga's permanent collection constitutes a perfect base line that includes almost eight decades of Pablo Picasso's artworks. Conveying the rigour and artistic capacity of a genius who becomes **essential to understand the history of western art**.

The private visit could include a walk through the **Palacio de Buenavista's roof terraces** which show an incredible view of Malaga's skyline; a stroll to the **archaeological site** that houses the rare remains of Malaga's ancient origins. Needless to say, what completes the experience is precisely the [architecture](#) itself of the palace, declared national monument and awarded by the American Institute of Architects for the incredible remodelling project of the building.

The visit could also consider the current [temporary exhibitions](#).

Please notice that visits could always be complemented by a creative experience in our workshops.

With all the possibilities offered, let us create together to you an unforgettable visit.
